international journal of forecasting

Author Index Volume 12 (1996)

(The issue number is given in parentheses)

Abramson, B., J. Brown, W. Edwards, A. Murphy and **R.L. Winkler,** Hailfinder: A Bayesian system for forecasting severe weather (1) 57– 71
Albertson, K. and **J. Aylen,** Modelling the Great Lakes freeze: forecasting and seasonality in the market for ferrous scrap (3) 345–359
Antzoulatos, A.A., Consumer credit and consumption forecasts (4) 439–453
Armstrong, J.S., Publication of research on controversial topics: the Early Acceptance Procedure (2) 299–302
Aylen, J., *see* **Albertson, K.** (3) 345–359

Belton, V. and **P. Goodwin,** Remarks on the application of the analytic hierarchy process to judgmental forecasting (1) 155–161
Bolger, F., *see* **Harvey, N.** (1) 119–137
Boylan, J.E., *see* **Johnston, F.R.** (2) 297–298
Brown, J., *see* **Abramson, B.** (1) 57– 71
Bunn, D.W. and **A.A. Salo,** Adjustment of forecasts with model consistent expectations (1) 163–170
Buongiorno, J., Forest sector modeling: a synthesis of econometrics, mathematical programming, and system dynamics methods (3) 329–343

Callen, J.L., C.C.Y. Kwan, P.C.Y. Yip and **Y. Yuan,** Neural network forecasting of quarterly accounting earnings (4) 475–482
Cecen, A.A. and **C. Erkal,** Distinguishing between stochastic and deterministic behavior in high frequency foreign exchange rate returns: Can non-linear dynamics help forecasting? (4) 465–473
Christou, C., P.A.V.B. Swamy and **G.S. Tavlas,** Modelling optimal strategies for the allocation of wealth in multicurrency investments (4) 483–493
Church, K.B. and **S.P. Curram,** Forecasting consumers' expenditure. A comparison between econometric and neural network models (2) 255–267
Collopy, F., *see* **Wright, G.** (1) 1– 8
Curram, S.P., *see* **Church, K.B.** (2) 255–267

Diamantopoulos, A., *see* **Winklhofer, H.** (2) 193–221

Edwards, W., *see* **Abramson, B.** (1) 57– 71
Engsted, T., The predictive power of the money market term structure (2) 289–295
Erkal, C., *see* **Cecen, A.A.** (4) 465–473

Faucheaux, C., Creating versus divining the future: a comment on "Forecasting: its role and value for planning and strategy" by Spyros Makridakis (4) 539–546
Flores, B.E., *see* **Vokurka, R.J.** (4) 495–512
Franses, P.H. and **F. Kleibergen,** Unit roots in the Nelson-Plosser data: do they matter for forecasting? (2) 283–288

Goodwin, P., *see* **Belton, V.** (1) 155–161
Grinyer, P., Comment on "Forecasting: its role and value for planning and strategy" by Spyros Makridakis (4) 546–550

Hackle, P., *see* **Öller, L.-E.** (3) 325–326
Harvey, N. and **F. Bolger,** Graphs versus tables: Effects of data presentation format on judgemental forecasting (1) 119–137

Ilmakunnas, P., Use of macroeconomic forecasts in corporate forecasting: a note on aggregation problems (3) 383–388

Johnston, F.R. and **J.E. Boylan,** Forecasting intermittent demand: a comparative evaluation of Croston's method. Comment. (2) 297–298

Kauppi, E., J. Lassila and **T. Teräsvirta,** Short-term forecasting of industrial production with business survey data: experience from Finland's great depression 1990–1993 (3) 373–381
Kleibergen, F., *see* **Franses, P.H.** (2) 283–288
Kolb, R.A. and **H.O. Stekler,** Is there a consensus among financial forecasters? (4) 455–464
Kruk, J.M., *see* **Tashman, L.J.** (2) 235–253
Kwan, C.C.Y., *see* **Callen, J.L.** (4) 475–482

Lahiri, K., *see* **Öller, L.-E.** (3) 325–326
